

Lawrence Kansas.

December 7. 1867.

My Dear Sir -

I would be glad to have you call at the Indian office and call the attention of Mr. Logan to an application pending before him for the confirmation of a deed executed by Sally Rodgers to Mrs. Sweetser & Mr. Kagle for her interest in the Real Estate of Capt. Parker. The granters and the grantees children of Capt. Parker and Sally Rodgers is his daughter. The two grantees children got one half the Real Estate and Sally Rodgers the other. Sally has sold by deed the whole of her interest to the two grantees children - and it is this deed that we desire confirmed - Sally Rodgers lives in Franklin - fifty miles from the land - She is an Indian in every sense of the word - She will not be used as her land in the claim nearly all her land is wooded. They are building the rail road through the prairie of all its timber being the hills.

and bluff lands of little or no value -
she can pay no attention to it - The two
grand daughters have intelligent white men
for husbands who if they had the title could
and would protect the property - All
the facts in support of the Sale is contained
in the report of Taylor the Indian agent and
a supplemental letter. The clerk to whom
the papers were referred has reported in
favor of confirming the deed - But it has
been waiting the return of Mr. Taylor -

Now I would be very glad if you would
call at the office and call up this matter
for the consideration of the Commissioner
I think his action will be favorable

Mr. Huntzelle and Mr. Noble are attached
to myself and May Abbott in some
\$2700. and the money is ready to be paid by
a man who has purchased of them a
portion of the land as soon as a good deed
can be obtained - We will esteem it a personal
favor if you will send this matter your
immediate attention -

Hon. Sidney Clark, Yours Truly

William Sherman
